

# EDUCATIONAL PROGRAM POLICY

Research accentuates that high quality educational programs significantly influence children’s development in all areas. We have the opportunity to provide a supportive learning environment and program, gaining inspiration from the children and families. Thoughtfully planned experiences and environments encourage the children to feel a sense of control over their actions, be curious and investigate, and explore their understanding of themselves, others, and the world around them. The United Nations Convention on the Rights of the Child (the convention) (United Nations 1989) states *‘that all children have the right to an education that lays a foundation for the rest of their lives, maximises their ability, and respects their family, cultural and other identities and languages.’* (EYLF, V2.0, 2022, p.5).

### **Policy statement / Purpose**

At Woy Woy Peninsula Community Child Care, the Australian Early Years Learning Framework (EYLF) is the approved National curriculum which informs and underpins the educational program and practice in our early learning environment.

The Australian Early Years Learning Framework principles, practices and learning outcomes guide educators approach to children's learning, including best practice, intentional teaching, decision making and an ongoing cycle of observation and assessment.

At WWPCCC the educational program and practice developed by educators recognises children's sense of agency and demonstrates a commitment to listening to and respecting children (the pedagogy of listening).

WWPCCC is committed to support the inclusion and participation of every child and their family within our early learning environment. Our educational programs and practices value and respect diversity including Aboriginal and Torres Strait Islander cultures, identities and connections to community and country. We recognise families have an intrinsic role in children's lives and in supporting a child to identify with and make meaning of themselves and their world.

Within the context of respect, reflect, relate we seek to build partnerships with children, families and the educators to maximise learning opportunities.

### **What does this policy apply to?**

- The development of a curriculum that enhances each child's learning and development
- Supporting children's participation and promoting children's agency
- Designing and delivering a program for each child

### **Curriculum development**

At WWPCCC the educator's approach to children's learning is informed by the Australian Early Years Learning Framework. Conversations between educators, children, their families and the broader community inform intentional aspects of the curriculum and support spontaneous experiences, play and conversations.

### **Supporting children's participation and promoting children's agency**

At WWPCCC we recognise children's agency and children's views inform and guide day-to-day practice.

### **Designing and delivering a program for each child**

At WWPCCC all educators engage in an ongoing cycle of planning that involves observing, gathering, and interpreting information about children underpinned by contemporary early childhood theories and perspectives.

WWPCCC educators listen to children and use documentation to record children's experiences and their responses to the learning environment.

WWPCCC educators actively co-construct learning (that is, learning takes place as children interact with educators and other children as they work together in partnership). Educators facilitate play-based curriculum and act as guides, coaches, facilitators and mentors to children's social interaction, thinking and communication capacities. Educators engage in ongoing critical reflection on their practice with children

to inform decisions about the type and degree of support, offered to the child as the learner. Reflections journals are used in each classroom to record and examine these perspectives for examining and adjusting practice. Individual educator reflections diaries are not required by WWPCCC to be used as part of the evidencing process.

WWPCCC educators engage in ongoing critical reflection of children’s engagement in the learning environment and of their own interaction with children to support their play so as to better understand the individual child as a learner.

WWPCCC utilises The Early Years Learning Framework (and/ or approved State-based frameworks) to guide informed decisions about curriculum development and in planning, implementing and evaluating.
